I've worked with Peter on and off over the last few years; he's been our go-to expert on digital platform development, blockchain and related topics. Peter's extensive expertise and broad network in this field is second to none and has benefitted our work at FAO, specifically our projects in the field, tremendously. He's a consummate professional who provides detailed and to the point advice, information and analysis without delay. He's one of those top experts that should be in any development practitioner's shortlist.

Highly Knowledgeable and Inspirational Entrepreneurship Professor

I had the privilege of being a student in two of Professor Peter Johnson's courses: "Entrepreneurial Culture" and "Entrepreneurship and Business Plan." Without a doubt, these experiences have significantly shaped my understanding of entrepreneurship and its practical applications.

Professor Johnson possesses an exceptional ability to convey complex concepts in an engaging and relatable manner. His deep expertise in the field of entrepreneurship, coupled with his genuine passion for nurturing innovative ideas, creates an inspiring learning environment. Through his thought-provoking lectures and interactive class discussions, he encouraged us to think critically and creatively, fostering an entrepreneurial mindset that extends far beyond the classroom.

One of the most valuable aspects of Professor Johnson's teaching is his dedication to hands-on learning. The "Entrepreneurship and Business Plan" course, in particular, challenged us to develop comprehensive business plans from scratch. Under his guidance, I not
